St. Augustine Regatta, Score of 7 = DNF; Score of 11 = DNS																	

50% of races must be ocean. When a competitor raced more river than ocean races the lowest scored river races are added to the total score until the number of ocean races was met. All river races marked with \* add 30 points to total score. Races scored "0" = throwouts. DNQ = (did not qualify, no ocean races.)
