This is the raw data for the Spinnaker Fleet that was provided to Sailjax for posting. It appears to have calculated elapsed times based on a start time of 14:09:00, instead of the 14:00:02 shown. It further appears to have calculated adjustments based on a distance of 5.5 NM instead of the 9.6 shown. Hence, I have corrected the results on the official document, and have included this here for record purposes  
Adam Norwood
